QI FORCE SOLUTIONS

COMPANY PROFILE

Spaces that perform. Built to be remembered.

Commercial interior design • Carpentry • Project delivery

MALAYSIA

One accountable partner from first brief to final handover.

Fewer hand-offs. Better coordination. Clearer ownership across the full project journey.

01

DISCOVER

Brief, site conditions, priorities and budget alignment

02

DESIGN

Space planning, concept direction and 3D visualisation

03

BUILD

Detailing, material coordination, carpentry and installation

04

DELIVER

Site management, quality checks and practical handover

Experience across the spaces where business happens.

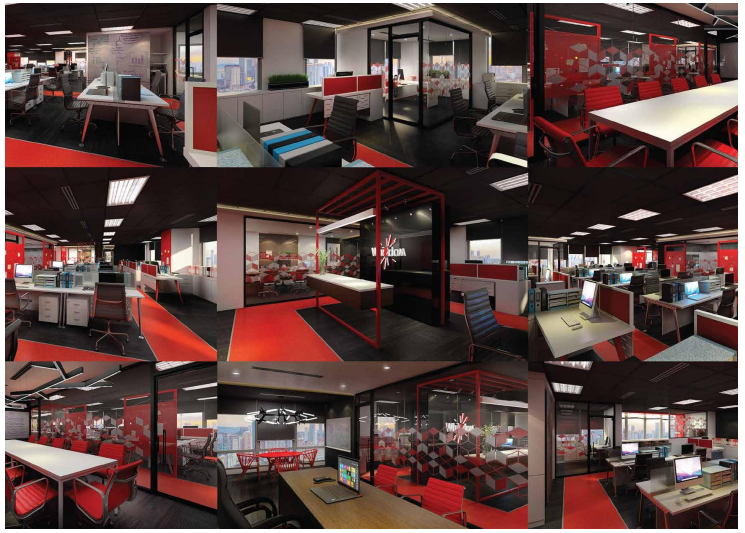
A cross-sector perspective helps us adapt proven ideas without forcing every brief into the same solution.

BRANDED STORES

Customer journey and branded display

F&B / LIFESTYLE

Atmosphere, flow and durability



OFFICE

Efficient planning and considered detail

WHAT WE DO

We turn commercial ideas into buildable spaces.

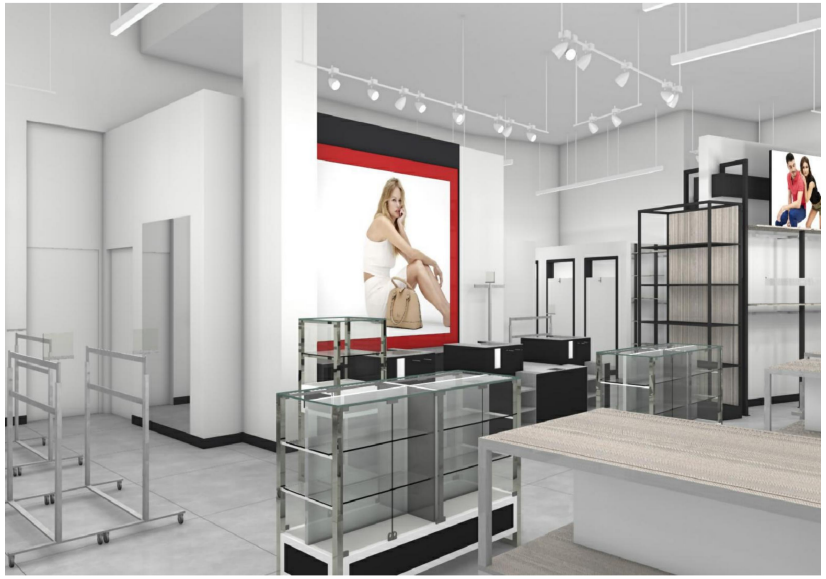
Qi Force Solutions brings concept design, visualisation, carpentry and project coordination into one accountable delivery team.

Built for retail, office and event environments across Malaysia.

DESIGN THAT ATTRACTS. DELIVERY THAT HOLDS UP.

Resolve the store before committing to the build.

Bird’s-eye planning and interior perspectives align display systems, circulation and brand zones before site execution.



BIRD’S-EYE PLAN • DISPLAY SYSTEMS • CUSTOMER FLOW • BRAND ZONES

SELECTED WORK

Retail environments that make products easier to choose.

We organise customer flow, product visibility, lighting and display details around the buying journey—not just the floor plan.

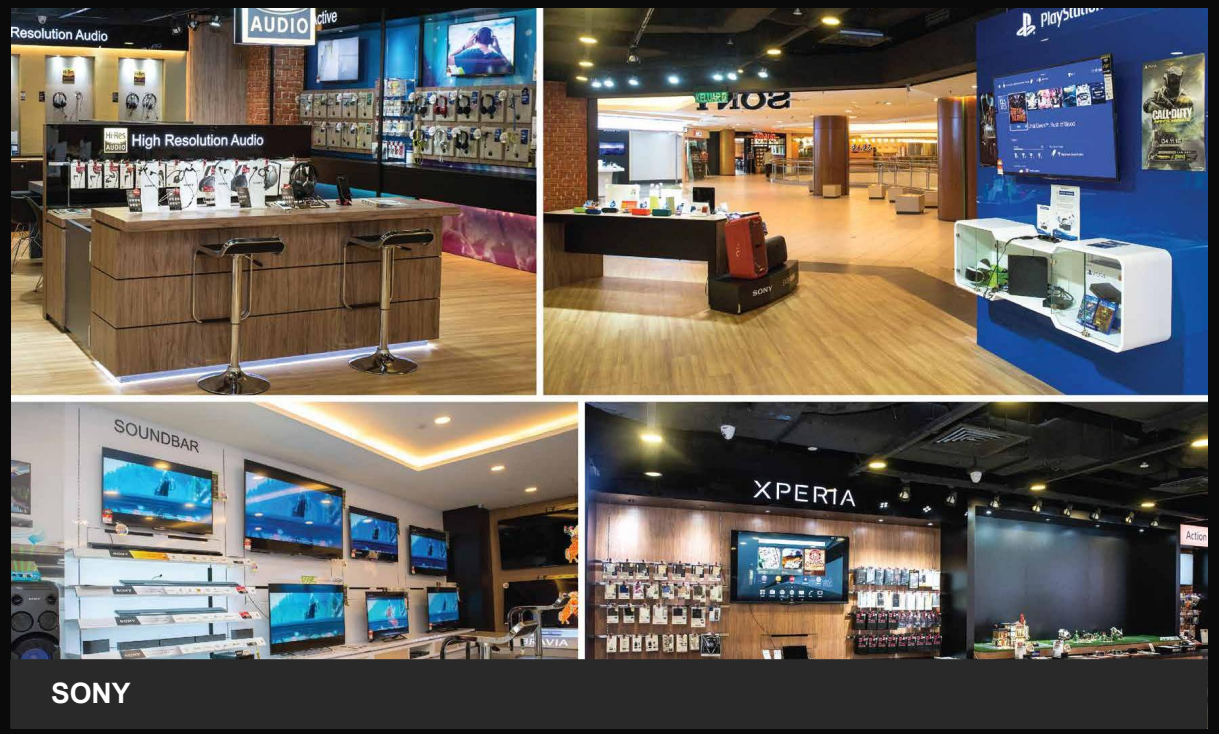
PROJECT EXPERIENCE

SONY • GUESS

Clarity, precision and repeatability—at every customer touchpoint.

Fixtures, displays and circulation work together so the technology stays central.

SAMSUNG

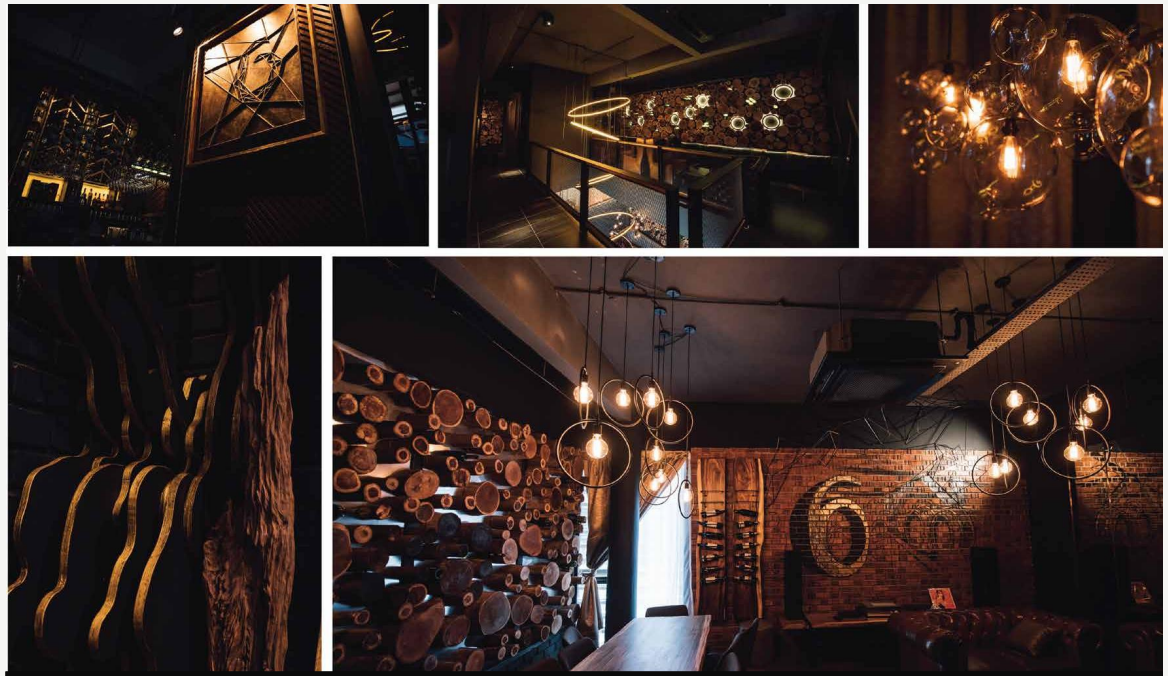


SONY

Atmosphere matters. So do flow, durability and operating reality.

We balance customer experience with the practical demands of high-use commercial environments.

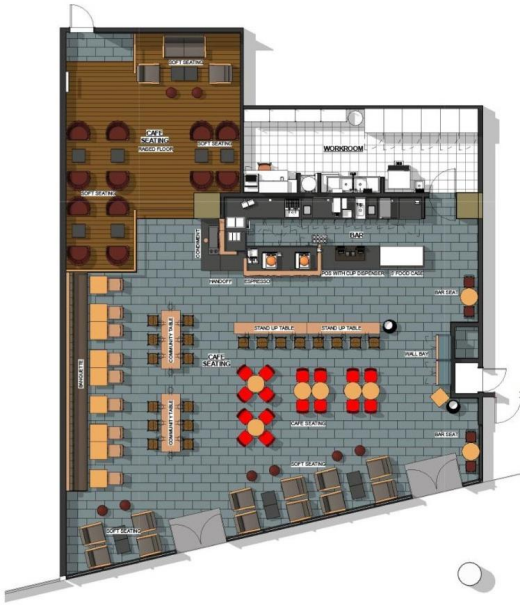
STARBUCKS COFFEE

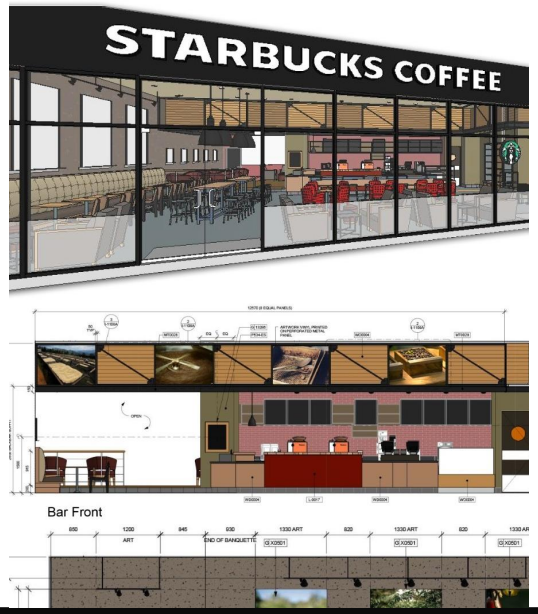


6 SENSES

Design intent becomes a consistent built result.

Space planning and technical detailing aligned customer flow, seating, materials and branded features before construction—supporting a consistent built result.





SPACE PLAN • 3D & TECHNICAL DETAIL • AS-BUILT STOREFRONT • AS-BUILT INTERIOR

Brand experience begins before the first order.

ZUS Coffee and Tiger Sugar concepts align storefront presence, ordering flow, seating and service zones before construction.

ZUS COFFEE • TIGER SUGAR • STOREFRONT • COUNTER • SEATING FLOW

OUR DIFFERENCE

Design decisions are made with buildability in mind.

The same thinking continues from visual intent into detailing, fabrication and site execution.

DESIGN INTENT

BUILD CONTROL

Build control protects the finish, schedule and fit.

Practical fabrication knowledge helps us resolve details earlier and install with fewer surprises.

DETAIL RESOLUTION

MATERIAL CONTROL

PROJECT MANAGEMENT

We manage the details customers never see—so the finished space works as intended.

Clear ownership across coordination, quality and delivery keeps decisions moving and reduces avoidable rework.

01 SITE & BRIEF

Validate conditions, constraints and priorities.

02 DETAIL & COORDINATE

Translate intent into practical drawings and packages.

03 QUALITY & INSTALL

Track workmanship, interfaces and site progress.

04 HANDOVER

Close out defects and deliver the agreed space.

START THE CONVERSATION

Bring us the brief. We’ll make it buildable.

A first discussion can clarify scope, priorities, timing and the right next step for your space.

LET'S HANG OVER COFFEE.

Give us a ring or drop us an email, and let's explore how together we can turn your aspiration and vision into reality.
